UX DESIGN

User Research

Conducts surveys, content audits, user interviews, stakeholder interviews, heuristic reviews, and ethnography to gather actionable data.

Usability

Conducts moderated and unmoderated usability tests, task analyses, analytics reviews, A/B testing, and Q/A to assess design usability.

Information Architecture

Creates sitemaps, blueprints, wireframes, taxonomies and tests IA with card sorting, first-click analysis, usability testing, and more.

Interaction Design

Creates user journey maps, sketches, wireframes, mockups, interaction, and prototypes, with Proto.io, InVision, Sketch, and more.

Analytics

Uses Google Analytics, Google Search Console, KPI performance, and heat and scroll mapping to gather qualitative data.
